

New!

INTRODUCING THE

PAN PIZZA TOTE™

THE PAN PIZZA TOTE™ is a Patent Pending dual purpose bag. It is a pizza box carrier and reusable shopping bag in one. It can turn from a pizza box carrier to a reusable shopping bag in seconds!

MULTIPLE PIZZA BOX CARRIER

It is a new concept that allows you to easily load and remove multiple pizza boxes from the lateral side opening. This unique multi box carrier keeps your pizza boxes locked-in and perfectly flat. It prevents pizza boxes from spilling out while carrying or shifting when driving in your car. The easy grip handle allows you a free hand to conveniently do other things (carry other items, handle keys, open doors, etc.). Add side pockets to store packets of peppers & cheeses, cutlery, napkins, etc.

REUSABLE BAG

Just Reuse It! Secure one of the pizza handle straps to the bottom of the bag and create a Reusable Bag in seconds (literally!). It is great to use for picnics, at the grocery store or beach, on road trips, etc. The bag has a large capacity and a reinforced bottom for extra strength. It is a great Marketing Tool to advertise your business. Let your customers be your walking billboard. Use the bag with customers as an in-store sale item or promotion. Encourage repeat business when customers reuse and bring back their bag.

FEATURES

- PATENT PENDING
- Reusable
- Affordable / Economical
- Easy to use. Simple. User friendly
- Light weight
- Soft and Flexible
- Collapsible and Foldable
- Easy storage
- Convenient
